

**Zeroing in on Quality Care with  
Innovation, Education and Motivation**

National Association of Nephrology  
Technicians / Technologists

**20-23 February 2017 | The Tropicana Hotel  
Las Vegas | Nevada**

The more technicians you send to the NANT Symposium the more you \$ave!

NANT is offering bulk registration discounts to companies that send 5, 10, 20 , 30 or more technicians to the NANT Symposium. Send 20 technicians and only pay for 18. Send 30 technicians and only pay for 25. This registration discount includes one year membership to NANT - a \$50 value. Pre-symposium workshops not included.

**WHY send YOUR TECHNICANS to the ONLY educational conference designed by technicians for technicians?**

1. Earn up to 26.3 contact hours towards their recertification
2. Learn from key US dialysis educators
3. Gather information for in-service training, including PowerPoints
4. Includes one year membership in NANT
5. See the latest in nephrology technology in the Dialysis Solution Center

**Bulk Discount Registration Fees**

<b>Per person</b>	\$395	\$385	\$375	\$350	\$325
<b># of techs</b>	1	5	10	20	30
<b>Total cost</b>	\$395	\$1,925	\$3,750	\$7,000	\$9,750
<b># free techs</b>				TWO!	FIVE!

*Note: Pre-symposium workshops have separate fees.*

## **Here's what technicians have to say about the value of attending the NANT Symposium:**

Although the speakers that I listened to were truly amazing I have learned that I am so much more than "just a technician". I have been fortunate enough to meet men/women from all over the world at this year's symposium with that said I learned there are many more opportunities out there for continued education. I would have to say that this is a huge advantage and I greatly enjoyed this aspect.

I received a good general update on what is emerging in hemodialysis treatment. I was also updated on the challenges of dialysis technicians in doing their job under time pressures, while following all the Medicare regulations.

I learned about the new trends on water purification technologies, and reinforcement of dialysis knowledge in general - both clinical and biomedical.

I am very thankful for the opportunity to join the symposium, I received a lot of good information that I got to take home and to share with my coworkers.

I gained useful information during the complex water treatment problem solving session that I can take back and use at our clinics.

I learned many great and helpful things. It's hard to choose just one. I feel that the information that is shared during the meetings is wonderful.

I received a good general update on what is emerging in hemodialysis treatment. I was also updated on the challenges of dialysis technicians in doing their job under time pressures, while following all the Medicare regulations.

The Fresenius Troubleshooting workshop was very helpful and informational.
